

A farmer is known by his furrow as "the carpenter is known by his chips." It takes a firm hand and a true eye to turn a straight furrow. No wonder the farmer wears out, spite of exercise and fresh air. One day's work on the farm would tire many a trained athlete. And the farmer works hardest of all. The first up and the last to bed, feeding his team before he feeds himself, his work is practically never done. Why does not the farmer treat his own body as he treats the land he cultivates? He puts back in phosphate what he takes out in crops, or the land would grow poor. The farmer should put back into his body the vital elements exhausted by labor. If he does not, he will soon complain of "poor health," The great value of Dr. Pierce's Golden Medical Discovery is in its vitalizing power. It gives strength to the stomach, life to the lungs, purity to the blood. It supplies Nature with the substances by which she builds up the body, just as the farmer supplies Nature with the substances that build up the crops.

"I write to tell you of the great benefit I received from the use of Dr. Pierce's Golden Med-

the substances that build up the crops.

"I write to tell you of the great benefit I revieved from the use of Dr. Pierce's Golden Meical Discovery," writes Mr. G. B. Bird, of Byrside, Putnam Co., W. Va. "It cured me of a verbad case of indigestion associated with torpi liver. Before I began the use of 'Golden Mec ical Discovery' I had no appetite; could not slee nor work but very little. The little that I at did not agree with me, bowels constipated, an life was a misery to me. I wrote to Dr. Pierc giving the symptoms, and asked for advice He advised me to try the 'Golden Medical Dr. Covery' so I began the use of it and after takin four bottles I felt so well that I went to work but soon got worse, so I again began the use of ind used it about eight weeks longer, when was permanently cured."

As stated in yesterday's Grzette evidence was in their possession tend-ing to connect her with the killing.

Sundey night Detective Horne and Lieutenant Moore, of the Sixth pre-cuet, had subjected Mrs. Basine to a thorough xamination, which convinced them she would break down on the Moore suggested they make one more effort. The sergeants' room was cleared and the three pessed in. Mrs. Bonine was practically given her choice between recogning her memory then or on the stand, and she agreed to tell her terms. ed. The coroner was notified and immediately adjourned the inquest which was then in session. With Assistant District Attorney Gordon he drove to mea quarters, where Mrs. Bonine told her sory to Major Sylvester, Inspector

Boardman and the others mentioned, it neing taken down by a stenographer.

Mrs. Bonice said that prior to March 4 she had a disagreement with Ayres about his babits, and that he drank too much. They were not on friendly terms after that until the morning of the shocing, when he had snoken to the shooting, when he had spoken to her. About 2 o'clock that morning be tapped at the door of her room in the annex. He wore at that time a coat, pair of trousers and possibly an under-shirt. He said he telt as though he were about to have a chill and asked if she had anything which would do him good-medicine of any kind. She told Ayres she had some laxative quinine and entered her son's room, adjoining here, to look for it, but was unable to find it. He remained standing in the doorway. When she approached him be let his arm fall over her shoulder and asked her to come to his room to talk over their differences. Mrs. Booice says she slipped on a wrapper and a pair of slippers and went to his room,

Ayres, according to her story, stood slightly behind the door and as she en-tered he closed it and locked it. Mrs. Bonine said she noticed that in his right hand Ayres held a revolver. She barged that he made an insulting proposition to her, which she resented, and would have left the room but that he stood between her and the door. Ayres then advanced, said Mrs. Bo-nine, and, pointing the revolver at her, "I guess you will listen to me

Mrs. Bonine said she became frightened and caught the revolver in her left hand. It exploded. Then, she said, she grasped it tightly with both hands, cleuching the right hand over the left, and with great force pushed it away. To prove this statement she exhibited marks on the knuckles of her away. To prove this statement she ex-hibited marks on the knuckles of her left hand presumably made by the figger nails of the right hand when clutched over the left. The revolver again exploded. She did not know how many shots were fired. Ayres fell against her, knocked her down, the blood gushing over her shoulder. A moment later, Mrs. Bonine says, she rose and called twice for help and sobbed. She saw that Ayres was injured, but did not know he was dead. The pistol had remained in her hand as his grasp relaxed and she laid it on the pistol had remained in her hand as his grasp relaxed and she laid it on the trunk. She says she left by the win-dow, passed down the fire escape to the second floor, entered the parlor window and went to her room. There she washed her hands and face and removed the traces of blood from her person, washed the wrapper and re-

She had not been advised to confess either by her husband or any-one else. Mrs. Bonine said she had never been unduly familiar with Ayres

IS THE BEST IN THE WORLD.

The Corby process of mixing the dough puts 22 per cent more gluten in "Mother's Br ad."

In a recent interview Mr Corby gave the following explanation of how this was accomplished:

"Chemists have found that flour does not contain gluten in the flour state, but there are two proteids called 'glyaden" and "glutenin," which, when hydrated into the dough mass, from gluten in the dough, and by the ordinary method in use and the hand manipulation it has been impossible to develop all the gluten, until we brought out our new pa ented dough-making machine and process

This machine and process absolu ely brings every particle of the glyaden and glutenin together, which is the only possible way of forming the gluten.

It is the presence of gluten which makes "Mother's Bread" so healthful-so nutritious and so wholesome." Sold by all grocers. DELIVERED IN ALEXANDRIA DAILY.

MEDICINAL. MEDICINAL. Digests what you Dyspepsia Cure

A powerful engine can't be run with a weak boiler; and you can't expect to keep up the wear and strain of an active life with a weak stomach. Our boilers, or rather our stomachs, can't be replaced, and we cannot stop the human machinery while making repairs. But when the stomach is unable to digest enough food to keep the body strong, we can use such a preparation as Kodol Dyspepsia Cure. It digests what you cat, so that you can eat all the good food you want, without any distress after eating. "After forty years of suffering from indigestion, a few bottles of Kodol Dyspepsia Cure cured me."—Annil Bell, Fredonia, Fa.

Again she had frightened off a supposed burglar by firing a pistol while visiting a friend in Columbus, Ohio. She had in the south a bulldog revolver, which she had given to a colored servant at the Ken more named Walter. She has two children, aged respectively 9 and 12 Mrs. Bonine could not tell if Ayres had been drinking Wednesday night, as she had no sense of smell. She denied having discussed the matter with her husband or Miss Minas or anyone else.

After the confession was taken down Mrs. Bonine was removed to the House of Detention by Detective Horne and Lieutenant Moore under arrest.

A Very Remarkable Remedy. "It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diar-rhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor, I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever.' Sold by Richard Gibson, druggist.

If people only knew what we know about Kodol Dyspepsis Cure it would be used in nearly every household, as there are few people whe do not suffer from a feeling of fulness after eating, belching, flatulence, sour stomach or waterbrash, caused by indigestion or dyspepsis. A preparation such as Kodol Dyspenia Cure, which, with no aid from the stomach, will digest your food, certainly can't help but do you good.
